Department of Electronics and Communication Engineering

Report on "Technical Activity Competition"

The department of ECE has Conducted "**Technical Activity Competition**" on behalf of Student Association (Akhyana), on 17/06/2023. Students of II Year B.Tech ECE were participated in this event.

Digitalization has improved the way we learn and explore engineering things in the world.

You will get bored when you constantly study or work on engineering stuff through books and lectures and You will be needing different approaches to refresh yourself from conventional methods but also stay connected with engineering.

There are plenty of options available for engineers with different tastes to learn things while having fun. The essential skills that an engineer needs to possess are technical skills, communication skills. The technical coding skills were practical coding tests, questions about technical concepts, and general questions about your experience."Spot the differences" complete walkthrough including image hint, video Game play and the short answer.
