

**DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING**

**Report on Poster Presentation**

The department of ECE has Conducted "Poster Presentation " on behalf of "IETE Student Forum (ISF)", on 14-11-2023 Students of B.Tech II, III & IV Year were participated in this event.

Creating a poster presentation involves designing a visual representation of your research or project to communicate key points to your audience. Here's a general guide on how to create an effective poster presentation:

**1. Understand Your Audience:**

- Consider who will be viewing your poster and tailor your content accordingly.
- Use language and visuals appropriate for both experts and non-experts in your field.

**2. Define the Purpose:**

- Clearly identify the main message or purpose of your poster. What do you want viewers to take away?

**3. Structure and Layout:**

- Divide your poster into sections, including title, introduction, methodology, results, conclusions, and references.
- Use a clear and logical flow to guide the viewer through your content.

**4. Title and Author Information:**

- Make your title clear, concise, and attention-grabbing.
- Include author names, affiliations, and contact information.

**5. Visual Elements:**

- Use visuals like graphs, charts, and images to convey information.
- Keep visuals simple, uncluttered, and easy to understand.
- Ensure all visuals are of high quality and clearly labeled.

**AUTONOMOUS**

**6. Text:**

- Use a legible font (preferably sans-serif) and a consistent font size.
- Be concise with text, using bullet points and short sentences.
- Highlight key findings or important information.

**7. Color Scheme:**

- Choose a color scheme that is visually appealing and aligns with your topic.
- Ensure good contrast between text and background for readability.

**8. White Space:**

- Allow for white space to prevent visual clutter and make your poster easy to read.

**9. Logo and Branding:**

- Include any relevant logos or branding elements associated with your research or institution.

**10. Printing and Size:**

- Check the printing specifications and guidelines provided by the conference or event.
- Ensure your poster is a standard size and can be easily transported.

**11. Proofreading:**

- Double-check for typos, grammatical errors, and formatting issues.
- Have colleagues or mentors review your poster for feedback.

**12. Practice:**

- Prepare a brief verbal presentation to accompany your poster.
- Practice explaining your research concisely and answering potential questions.

**13. Engagement:**

- During the presentation, be approachable and ready to engage with viewers.
- Use your poster as a visual aid to guide discussions.

Remember that a good poster should be visually appealing, easy to understand, and able to stand alone to convey your main message even if you're not present. Tailor your design to the specific requirements of the conference or event where you'll be presenting.

**Winners List of Poster Presentation**

S. No	Roll No	Name of the Student	Class	Prize
1.	21711A04G0	N.Anjani	III ECE-C	I
2	21711A04E2	G .Kavya	III ECE-C	
3.	21711A04F7	Md. Sheema Sulthana	III ECE-C	
4.	21711A0481	G.Tharaknadh	III ECE-B	II
5.	21711A04E5	K.V.Bhumisree	III ECE-C	
6.	21711A0435	M. Leela Krishna	III ECE-A	
7	21711A04E3	K.Pallavi	III ECE-C	III
8	21711A04H4	Sk.Faziha	III ECE-C	
9	21711A04H9	Sk.Saniya	III ECE-C
