

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

Report on Techno Crosswords

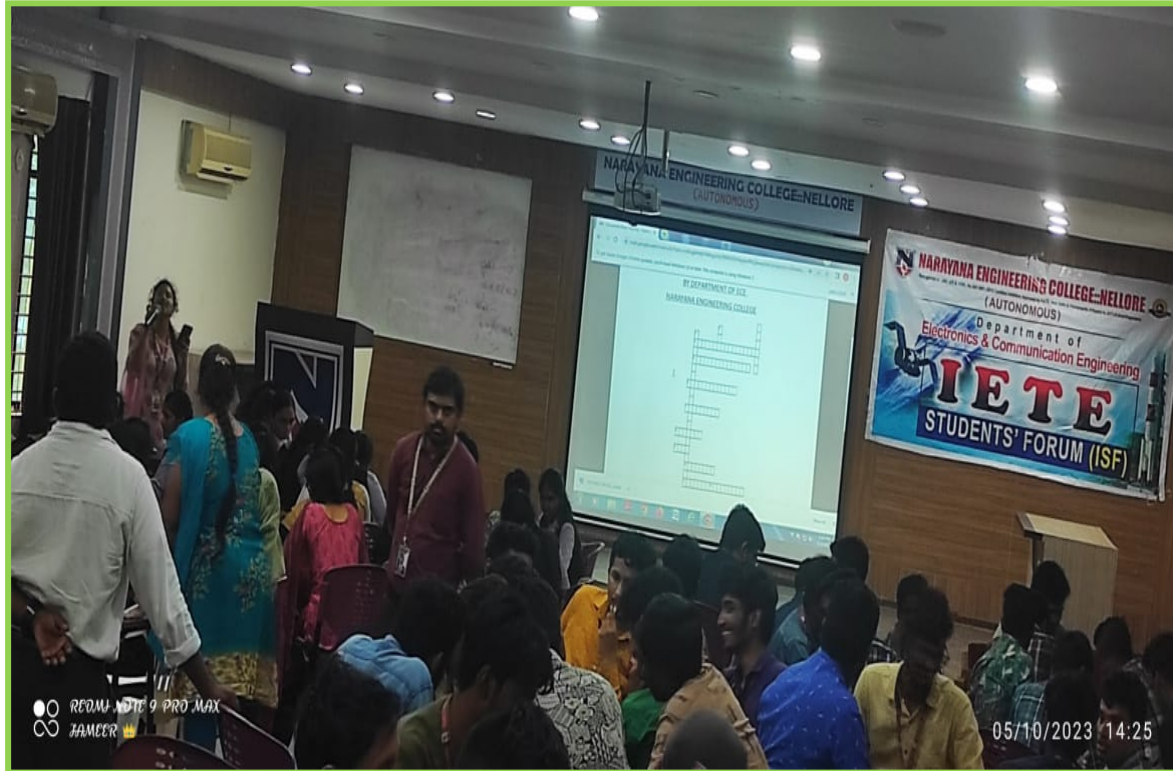

The department of ECE has Conducted "Techno Crosswords " on behalf of "IETE Student Forum (ISF)", on 05-10-2023 Students of B.Tech II, III & IV Year were participated in this event.

Techno crosswords are crossword puzzles that feature clues and answers related to technology, computer science, electronics, and other tech-related topics. These crosswords often include words, terms, acronyms, and concepts from the world of technology. They can be a fun and challenging way to test your knowledge of tech-related vocabulary and concepts.

The combination of mental stimulation, sense of accomplishment, learning, relaxation, and social aspect can make crossword puzzles a fun and rewarding activity for many people.

For example, Wordplay is a commonly used technique in crossword puzzles that constructors use to create clues that are both fun but offer up a challenge to the solver. This technique involves using various word games such as puns, homophones, anagrams, and double meanings to make the puzzle more engaging and tricky for the solver.

Don't be afraid to experiment with different answers until you find the one that fits. It's not uncommon for a solver to come up with several possible answers for a clue before finding the correct one. And if you're still stuck, take a break and come back to the puzzle with fresh eyes. Sometimes, a brief break can give your brain the chance to make connections it might have missed earlier. If you've already given it your best shot, don't worry - we have the answer for you so you can move onto the next clue in the grid!
